

Please join us to celebrate the

140th IEEE Electrical & Digital Innovation Renaissance

across three centuries

Thomas Coughlin
IEEE President

Thomas Edison and Alexander Graham Bell - pioneers of electricity and telephony, respectively - founded the IEEE (originally AIEE) in 1884, heralding the **19th-century electrical Innovation Renaissance**. The computer, PC, and the internet have led to the **20th-century digital Innovation Renaissance**.

Come to witness how AI ignites an Innovation Renaissance in the 21st century.

Don't miss the once in a lifetime opportunity to hear historical AI breakthroughs for **Perpetual and Boundless AI for Humanity** directly from world thought leaders,..

Dr. Peter Lee, President,
Microsoft Research

Dr. Blaise Agüera Arcas
VP, Fellow, CTO, Google

United States Senator
Maria Cantwell

Prof. Steve Brunton
AI Institute in dyn sys.

Mr. Rish Tandon
VP, Meta

Prof. Blake Hannaford
UW Bio Robotic Lab

Dr. Kristin Luter
S. Dir. FAIR Labs.Meta

Dr. Juan Lavista Ferres,
CVP, Chief data, AI For Good

Prof. Eric Klavins
Chair, Dep. EE CE UW

Prof. Chirag Shah, UW
Co-Founder, RAISE

Brush up your AI skills at over 20 AI enablement workshops

- ❖ The Global Health lab, Gates Ventures.
- ❖ Lee labs, UW School of Medicine.
- ❖ AI institute in Dynamic System

Plus, workshops by Microsoft, Amazon, Meta, Expedia, Netflix, Agilent, Apple, Nvidia etc.

This is a unique chance to expand your knowledge and be at the forefront of AI advancement.

More exciting program news to come. (\$25 registration fee for IEEE members)
