ABOUT THE SPEAKERS

Ed Perkins is IEEE Region 6 Website Administrator and Region 6 Past Director

Ed Perkins has been an IEEE volunteer since 1980. He is Secretary of the Nanotechnology Council, former Region 6 Director (2011-12), past chair of the MGA Membership Recruitment and Recovery Committee, past Vice-President of Professional Activities for IEEE-USA. He also is a past chair of the Oregon Section and co-founder of the IEEE Conference on Technologies for Sustainability (SusTech), and a past chair of the IEEE Global Humanitarian Technologies Conference (GHTC).

Ed has a BS EE and MS CS from WPI (Worcester, Mass.), and an MS ECE from PSU (Portland, Ore.). He is a Life Senior Member of IEEE.

Gerardo Bulla, a Senior Engineer at Southern California Edison, he Leads a high-performance team responsible for the engineering and regulatory compliance standards of the electrical Grid from design to construction, research, deployment of Grid assets for real time control and dispatch of electric power systems, wide area monitoring, protection, and control. In addition, lead special projects, process review and quality improvement initiatives to meet company goals and objectives. Fine tune project management abilities to enhance productivity and efficiency of my group and others SCE groups to meet company operating and external regulatory requirements.

Geraldo received his BSEE in Electronics from "Universidad Distrital, Bogota Colombia" and Project Management Certification from UCI.
